

## ***ALL SAINTS ANGLICAN COLLEGE SPORTING PRECINCT***

Grassports and All Saints Anglican College teamed up to create a dynamic sporting precinct, transforming an expansive natural grass field and low lying area affected by flood water, into a awe-inspiring hub for aspiring athletes!

Brand new construction of 6 new multipurpose courts along with reviving 4 old courts. All **8,314m<sup>2</sup>** of the courts were surfaced in Laykold Acrylic surfacing.

Consideration into matching the colours to the school school are reflected in the finished project.

Further works included a 432m<sup>2</sup> synthetic grass pitch that can be used for cricket when they mesh fencing is in place and long jump when it is not.

Such a fantastic area the students of All Saints can enjoy and compete on. This is the envy of all competing schools.
